

DIMO MAINT APP BECOME MORE EFFICIENT!

ACCESS YOUR CMMS FROM YOUR MOBILE PHONE OR YOUR TABLET!

DIMO Maint APP is the result of more than 20 years of experience in publishing software solutions for maintenance management, and is viewed as **the essential solution for technicians.**

DIMO Maint APP is **easy to use** and reconciles essential CMMS functionalities with native functions of smartphones and tablets (voice recognition, photo, etc.).

DIMO Maint APP is **a totally redesigned application to exploit CMMS functionalities in mobility situations.**

The ergonomics of the application have been totally reworked to allow technicians, working in tough conditions, to still be able to use **DIMO Maint CMMS easily**, with its touch screen mode.

DIMO Maint APP is the best answer to:

- Simplify and help field data collection by technicians
- Accelerate data reporting towards CMMS
- Provide maintenance monitoring as closely as possible to reality in the field
- Increase your staff's productivity

- Quick and easy to deploy, with its Flash QR Code
- Easy to control and intuitive with no preliminary training required
- Continuously optimized interventions in the field

HOW IT WORKS

DIMO Maint APP is a **hardware** (smartphone, tablet) **and software multiplatform solution** (Android and iPhone).

DIMO Maint APP works in disconnected mode to provide permanent data access and the ability to keep working whatever the network coverage. **Synchronization** gives efficient and secure information exchange.

DIMO Maint APP is **connected to all the GMAO DIMO Maint software** and **benefits from the languages managed by the back office of the solution used.**

In the field :

- Mobile App
- Mobile user in disconnected mode
- Smartphone
- Tablette
- Android / iPhone

CMMS

- Software DIMO Maint
- Connected sedentary user

DIMO MAINT APP : A NEW WAY TO DEAL WITH INTERVENTIONS !

Access the list of work orders, pending and in progress, and view those assigned to you

Assign the work order to another stakeholder
